NSF StayFlat® Sheet Pans

Equipment Reports 2015 Smallwares Winner & 2017 Finalist!

Our NSF StayFlat® Sheet Pans are now available in three sizes - full, half, and third-size! The latest third-size addition features a sanitary open bead. semi-curled rim for enhanced accessibility and easy cleaning. StayFlat technology continues to dramatically increase pan strength and longevity, ensuring you experience unmatched innovation, reliability, and efficiency.

Reinforced Sides Prevent Flaring

StayFlat Sheet Pans feature sidewalls that are continuously reinforced with a horizontal engineered rib. This feature increases sidewall strength up to 30% and provides an easy visual identification reference for situations where stronger, flatter sheet pans are required, such as for transport or for baking pies and cakes.

Increased Tensile Strength

A proprietary manufacturing method imparts a residual tensile stress in the StayFlat pan bottom, which further increases the strength of the pan and resists damage from denting or bowing.

Concave Bottom Resists Bowing

The method used to increase tensile strength of the StayFlat pan bottom also creates a slightly concave bottom that flattens during heating for even heat distribution and increased resistance to bowing.

Item#	In Stock	Coating	Description	Overall Size (in)
Full-Size				
30694	*	Plain	16 gauge*, band in rim, NSF-certified	17 ¹³ / ₁₆ x 25 ¹³ / ₁₆ x 1
Half-Size				
30850	*	Plain	18 gauge*, band in rim, NSF-certified	12 ¹³ / ₁₆ x 17 ¹³ / ₁₆ x 1
Third-Size				
45052	*	Plain	16 gauge*, sanitary open bead, semi-curled rim, NSF-certified	9 ⁵ / ₁₆ x 17 ³ / ₄ x 1

Custom Pan Manufacturing

Need custom pan sizes, mould designs, or configurations? Chicago Metallic can design a pan to meet your specific baking needs.*

- · Pan size and arrangement
- Mould designs for signature products
- Material options
- · Strengthening options

*Minimum order quantities as low as 250 on most pans.
